

Here we define a block which will be inserted to another place.

$\langle Displayed label \rangle \equiv$   
1 **second line**  
2  $\langle Inner block \rangle$

A block can be defined by parts.

$\langle Displayed label \rangle + \equiv$   
3 **fourth line**

And here we insert the block.

4 **first line**  
5  $\langle Displayed label \rangle$

Finally we define the inner block.

$\langle Inner block \rangle \equiv$   
6 **third line**
